

Cisco Unified Presence Design and Implementation

Duration: 3 Days **Course Code: PRSDI**

Overview:

Cisco Unified Presence Design and Implementation (PRSDI) v6.0 is a 3-Day course that prepares you for installing and configuring a Cisco Unified Presence Release 6.0. It also includes integration options with other Cisco Unified Communication products as well as third-party presence solutions, including Microsoft Live Communication Server, Microsoft Office Communications Server, and IBM Lotus Sametime. Finally it presents deployment and maintaining options.

Target Audience:

Channel Partner / Reseller
Customer
Employee

Objectives:

- After completing this course, the learner will be able to meet these overall objectives:
 - Design Cisco Unified Presence deployment solutions.
 - Describe Cisco Unified Presence interoperability and integration options.
 - Install and configure Cisco Unified Presence and integrate it with other presence solutions.
- Explain presence technology and solution and describe Cisco Unified Communications Manager and Cisco Unified Communications Manager Express Presence.

Prerequisites:

- Working knowledge of converged voice and data networks.
- Working knowledge of MGCP, SIP, and H.323 and their implementation on Cisco IOS gateways.
- Ability to configure and operate Cisco Unified Communications Manager.
